There are several options for downloading:

1. Select a zip file of an [Individual ENC](#) from a list sorted by name.
2. Select a zip file of an [Individual ENC](#) from a list sorted by date.
3. Write an application or script that uses the data in the [ENC Product Catalog](#), an XML file that contains the status of the ENCs available for download.
4. Select one of the pre-packaged zip files below.

Then, open TZ Professional, select "Manage ENC" located under the TMEZERO button and click on "Import".

Select the "ENC\_ROOT" folder containing the S57 charts you wish to import and click on "OK":

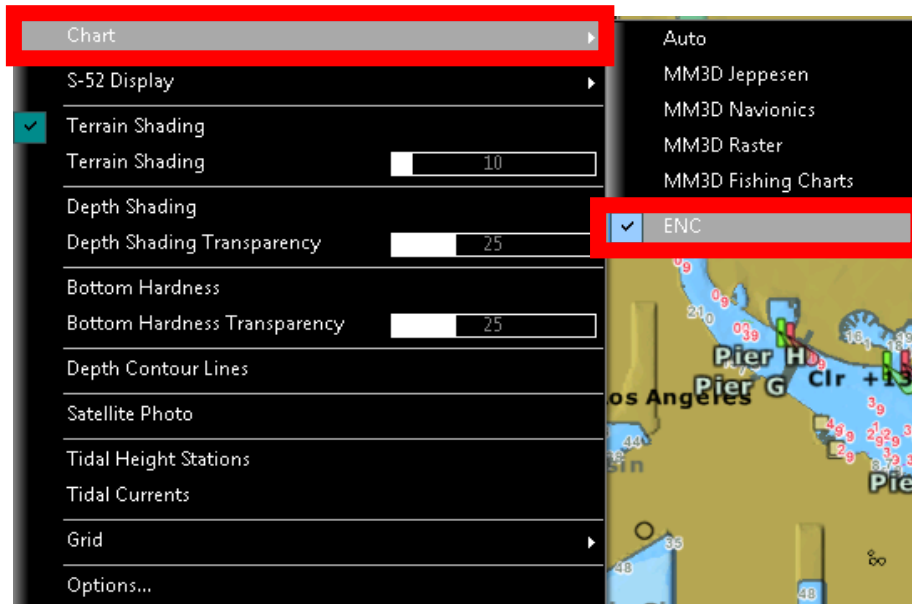

TimeZero Professional will convert the chart cells and import them on your computer.

Once the charts are successfully imported, you can erase the "ENC\_ROOT" folder from your computer.

To display the charts in TZ Professional, make sure to select "ENC" under the "Chart" selection of the "Chart" button located in the ribbon.

Long Beach, California

To update the charts, simply repeat the procedure above and re-import an updated "ENC\_ROOT" folder.
